WHOLESALE PRICE LIST

SEASON 1939-1940

November 15, 1939

PLEASE NOTE

All summer prices and other quotations not accepted to date are hereby cancelled.

Prices. All prices herein are strictly net, to the trade only and for goods at our nursery unless otherwise stated. This list means what it says both as to prices and terms and we do not deviate from it.

Pots. Prices of pot-grown stock do not include pots and unless otherwise instructed plants will be shipped without them. If wanted in the pots they will be charged for at cost, but may be returned and credit will be given.

Specimens. Prices herein are for average good plants but selected specimens will be charged for extra at actual value.

Terms. To buyers of known or established credit, 60 days from date of invoice. Otherwise cash with order or 25% with order, balance C. O. D.

Quantities. Five or more plants of one kind and size will be supplied at 10 rate; 25 or more at 100 rate; for less than 5 of one kind and size add 20% to 10 rate.

Grading. Plants that are wider than tall are graded by width.

Packing. At cost as usual, including paper pots if used. Plants will be packed to secure lowest possible freight classification consistent with the nature of the goods shipped. Packing free if cash comes with order.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight or express and where water shipment is possible be sure to specify by water or rail as you may prefer.

Other Stock. This list covers stock for shipment from our San Jose Nursery. We also act as selling agents for several other growers so shall be glad to have inquiries for any material grown on the Pacific Coast but not listed herein.

Complaints. Must be made within 10 days after buyer receives the goods.

This firm is a member of

CALIFORNIA ASSOCIATION OF NURSERYMEN
PACIFIC COAST ASSOCIATION OF NURSERYMEN
CENTRAL CALIFORNIA NURSERYMEN'S ASSOCIATION
CALIFORNIA HORTICULTURAL SOCIETY
AMERICAN HORTICULTURAL SOCIETY
ROYAL HORTICULTURAL SOCIETY (of England)

New Items

As a result of several years of intensive importation of the finest new things from Europe and elsewhere as well as the results of our own breeding of woody plants we feel sure that this list contains the best assortment of

NEW AND RARE TREES AND SHRUBS

now available to the nurserymen of the U. S. A.

If you are progressive it will pay you to
STUDY THIS LIST CAREFULLY!

Your attention to the following items is particularly suggested:

PICEA GLAUCA CONICA	page 5
TAXUS BACCATA FASTIGIATA.... ..	" 6
CORREA PULCHELLA	" ..9
CYTISUS BATTANDIERI	" 10
DAPHNE, IN VARIETY	" 11

FRAXINUS—MODESTO ASH	" 21
LABURNUM VOSSI	" 21
ROBINIA HISPIDA MACROPHYLLA	" 22
LILACS	" 23
MAGNOLIAS	" 25
FLOWERING QUINCES	" 25
CYTISUS PURPUREUS PENDULUS	" 27
VIBURNUM FRAGRANS	" 28
WISTERIAS	" 30
TREE ROSES	" 32

"Garden Aristocrats 1940"

This is the title of a descriptive booklet that we get out annually in January. It contains considerably more descriptive material than this list and also includes quite a number of very new things of which the present supply is too small to be included in a wholesale list.

In January we will mail a copy of this booklet to every nurseryman in Washington, Oregon, and California whose name is on our mailing list. We shall be glad, upon request, to send a copy to any address in the world.

Lining Out Stock

For your convenience we have assembled this material on page 31. Much of it is scarce.

Abbreviations

It is important for buyers to know whether they are getting seedlings or cuttings, etc., so we have shown how every item was propagated using the following abbreviations:

B—budded	G—grafted
C—cuttings	S—seedlings
A. M. R. H. S.—Given an Award of Merit by Royal Horticultural Society of England	

Conifers

Unless otherwise stated all plants in this section will be balled at prices quoted.

NOTE: A large portion of our conifers are grafted on seedling roots which gives them a far better root system than when grown from cuttings.

For "growing on" sizes see end of price list.

VIBURNUM BURKWOODI,		
BURKWOOD VIBURNUM		
This has been very fully described previously and is the best shrub novelty of recent years. Briefly it is an evergreen (or semi-evergreen according to climate) Viburnum carlesi. Bears large clusters, up to 4 inches diameter, of intensely fragrant flowers, pink in bud, opening white. Growth very vigorous. Hardy to northern Ohio.		
Our entire output of field grown plants has already been sold for this season but we can still offer some very fine grafted, pot-grown material as follows:		
5 in. pot 2 yr. grafts about 1½ to 2 ft	.80	.75
5 in. pot 1 yr. grafts about 1 to 1½ ft.	.65	.60
4 in. pot 2 yr. grafts about 1 to 1½ ft.	.65	.60
4 in. pot 1 yr. grafts about 8 to 12 in.	.55	.50

4 in. pot 2 to 2½ ft. C.....	.40	.35
4 in. pot 1 to 1½ ft. C.....	.35	.30
XYLOSMA senticosum (new)		
Introduced a year or two ago as Myroxylon senticosum. The glossy foliage is remarkably attractive and seems to please everyone. Said to bear red berries but hasn't as yet here.		
gal. can 2 to 2½ ft. C.....	.40	
4 in. pot 1½ to 2 ft. C.....	.30	.25

Flowering Fruit Trees

All plants in this section will be dug "bare roots" unless otherwise stated. Our Almonds, Apricots, Cherries, Peaches and Plums are grown outside the Peach Root Borer district so can be shipped anywhere.

In addition to material offered in this list we have a fine stock of larger and older Flowering Apricots, Peaches and Plums suitable for use within a radius of 50 miles or so. Neighboring nurserymen are invited to call and see the trees.

AMI SCHOTT—BCDE. Double; dense panicles of broad cuculate flowers, deep cobalt blue with paler reverses; a superb novelty.

DIPLOMATE—CDE. Single: huge bunches of well shaped regular flowers, cobalt blue shaded mauve, center pale lilac, buds light purple.

ETNA—DE. Single; broad panicles of medium sized regular flowers. Late. Deep claret purple; probably nearest approach to red.

FIRMAMENT—BCDE. Single: immense panicles of large regular flowers of a beautiful shade of sky blue, truly a gem among blue varieties.

HUGO DE VRIES—CDE. Single; bright mauve-rose. The separate flowers have a diameter of from ¾ in. to 1½ in. and the spikes are large and well built. Excellent for forcing.

MARECHAL FOCH—DE. Single; bright carmine rose becoming mauve. Flowers over an inch across. Clusters up to foot long. Some consider this best single Lilac to date.

MASSENA—DE. Single; strong upright spikes; flowers over 1 in. broad and of deepest purple red. A.M.R.H.S.

MONUMENT—BCDE. Single; very big and compact trusses of creamy white flowers. Very showy novelty of unusual floriferousness.

PRODIGE—CDE. Single; this novelty carries good trusses of immense flowers, fully measuring 1½ inches in breadth, of a deep purplish red.

SPECIAL VARIETIES

Includes scarce and slow-growing varieties. Also Species Lilacs.

A 4	to 5	ft.	1.50	1.25
B 3	to 4	ft.	1.00	.85
C 2	to 3	ft.70	.60
D 1½	to 2	ft.60	.50
E 1	to 1½	ft.45	.40

Letters after varieties indicate sizes available.

ALEXANDER HAMILTON—DE. Double, violet lavender, flowers remarkably large.

CAPT. PERRAULT—DE. Double, rosy mauve, large, late.

CHRISTOPHER COLUMBUS—CDE. Single, buds mauve, flowers pure blue.

GENERAL PERSHING—DE. Double, flowers of unusual size, broad lobes, rich purplish violet, late, very showy.

LUCIE BALTET—BCDE. Single, coppery rose, an unusual and beautiful color.

MME. FELIX—CDE. Single; pure white. Very early.

PRES. LINCOLN—E. Single; clear blue.

SUNOL—CDE. Double; buds purple; open flowers blue-lilac. Hose-in-hose type flower with strong fragrance.

VESUVE—E. Single; dark purple, rather dwarf.

Originated Here

#112—BC. Single, opens bluish purple, becoming blue with age. Good fragrance. Unusually free blooming. Flowers and clusters large. Mid-season.

DECIDUOUS SHRUBS

LILACS (continued)

Species Lilacs

- S. japonica*—ABCDE. Japanese Tree Lilac. Tree, last to bloom, May and June. White flowers.
- S. oblata*—DE. Flowers pale lilac in large clusters. Earliest of all.
- S. reflexa*—ABCD. Flowers rosy pink in long drooping clusters. Very free bloomer.
- S. sweginzowi superba*—BCDE. Fragrant blush flowers. Very late.
- S. tomentella*—BCDE. Exceptionally fine. Blooms young and remarkably freely in huge clusters a foot broad. Flowers soft lilac pink.

FLOWERING QUINCES

(CHAENOMELES, formerly Cydonia)

C. californica

(Cathayensis Hybrids)

This is a new and distinct hybrid species obtained in our nursery by crossing C. superba with C. cathayensis. They are vigorous growers, make short laterals freely and are heavy bloomers. Some are extremely early commencing to bloom in December and January here. Introduced last season under numbers only. Some have since been named. We believe they "have what it takes" to attain wide popularity.

E 1 yr.70	.60

floribunda longissima alba BCDE

floribunda Royal Purple CDE

The best new Wisteria we have seen in years. Of the Japanese type and has the deepest purple flowers of all the single Wisterias, borne in well filled clusters of moderate length. Very precocious, blooming almost as young as Chinese.

Roses

We grow bush and climbing roses extensively in a fine assortment of varieties. List is too long to be included here but will be sent on request. After orders already booked have been filled we will issue a revised list which will be mailed to all customers on the Pacific Coast and upon request to Eastern Nurserymen.

Standard or Tree Roses

QUALITY: The very best. Stems 40 inches tall with well branched and well developed heads.

STEMS: Most varieties on either LaGrifferaie or I. X. L. The former is hardier; the latter, which is on Odorata root, is smoother in appearance.

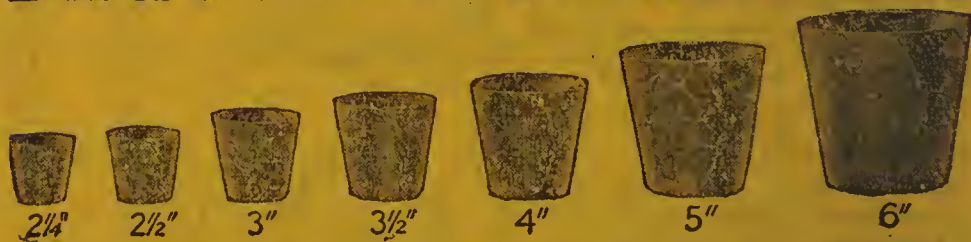

VARIETIES: An excellent assortment but limited to those that do well in tree form and make good heads.

Bird's IMPROVED NEPONSET Flower Pots

We are agents for Bird & Son's famous Neponset Paper Pots. The green pots, now greatly improved, are used for growing and the red (same as we use ourselves) for shipping.

Prices on green pots are at factory in Mass. Freight via Panama Canal is slight.

Prices on red pots include freight to any point in U. S. A. if ordered for shipment direct from factory. Otherwise f. o. b. San Jose. All prices are for unbroken case lots.

Size	Quantity per case	Price per 1000	
		Green	Red
2 inch	1000	\$ 5.00	\$ 3.00
2½ inch	1000	5.50	3.50
3 inch	1000	6.25	4.50
4 inch	500	10.00	7.00
5 inch	500	14.00	10.00
6 inch	500	18.00	13.00

Special rates will be quoted on request for unusually large quantities.
